**ELEVATORPROM
SERVICE Ltd.**

ELEVATORPROMSERVICE - since 1969
manufactures equipment for grain storage
and processing enterprises

ELEVATORPROMSERVICE – factory-manufacturer:

- ✓ Universal hydraulic truckdumper
- ✓ Truckdumper-scales
- ✓ Sampler
- ✓ Conveyor belts, scraper chain conveyors
- ✓ Elevator for vertical grain movement
- ✓ Platform electronic truck scales, wagon scales
- ✓ Gravity equipment
- ✓ Conveyor chains
- ✓ Accessories for elevator equipment

Universal hydraulic truckdumper

U-ARG-1240.6

....

U-ARG-2280

U-ARG-24100

Production of other standard
sizes is possible

**ELEVATORPROM
SERVICE Ltd.**

Is intended for unloading grain through the open tailgate from the vehicle and trailer without uncoupling simultaneously on one platform, from single cars and truck tractors with semi-trailers with an installation length of them (according to the outer size of the wheels) up to 20 m and a total weight of up to 100 tons

Truckdumper scales ARV-1650/2170

- This design of the unloader combined with the scales allows weighing and unloading from one vehicle installation on one platform.

Platform electronic truck scales to 80 tons

- For static weighing of various vehicles with digital indication of results on a PC monitor.

- We provide delivery services, installation, commissioning, staff training and surrender to the State Standard of Ukraine.

Electronic platform wagon scales to 150 tons

- For static weighing of railway cars and tanks with digital indication of results on the PC monitor..
- Used strain gauge equipment of foreign production

Single point pneumatic sampler

- The sampler is pneumatic single-point "CORN" moves on a rail, parallel to the board motor transport

- is designed to take grain samples from freight vehicles pneumatically or mechanopneumatically

Conveyor belts

The model range allows us to satisfy both the needs of farms (productivity from 25 t/h) and port terminals (productivity up to 1,500 t/h)

**ELEVATORPROM
SERVICE Ltd.**

Scraper chain conveyors

Conveyor apply in storage enterprises and processing of grain products, at various food enterprises industry warehouse rooms and in other industries.

**ELEVATORPROM
SERVICE Ltd.**

Productivity
 $Q = 10-600$ tons / hour

Elevator

Bucket elevators type NCC are designed for vertical transportation of grain and other bulk products..

**ELEVATORPROM
SERVICE Ltd.**

Productivity Q -1000 t/h.,
Lifting height along the
axes of the drums
no more H – 60m

Gravity equipment

Form of self-flowing equipment
may vary depending
from their purpose and
purposes of use

**ELEVATORPROM
SERVICE Ltd.**

Conveyor chains

M-112

M-224

M-315

**ELEVATOR PROM
SERVICE Ltd.**

Chains are made for
specified sizes
The customer.

Accessories for elevator equipment

Pump station

Hydraulic jacks

**ELEVATORPROM
SERVICE Ltd.**

Electromagnet

Services

Installation of scales,
unloaders, samplers,
electrical installation

Execution of projects of
turnkey grain terminals,
equipment of own
production, installation

The products are certified
and included in the list of
equipment, the cost of
which is reimbursed by
25% by the State

Quality of the equipment and
accessories corresponds to technical
conditions, on operational
characteristics is one of the best
among plants of the made equipment
in the CIS

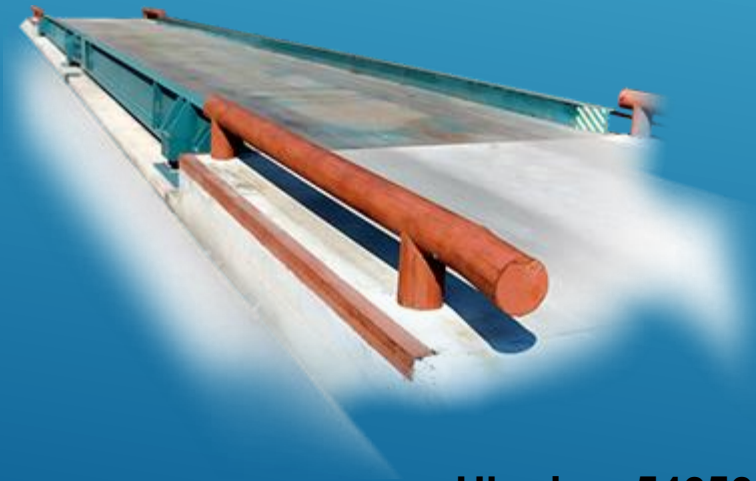

Reconstruction of
truckdumper
with increasing platform
length and increasing
load capacity
